ABLE Age Adjustment Act Stakeholder Toolkit

Countdown to Expanded ABLE Eligibility: About the ABLE Age Adjustment Act

Starting January 1, 2026, more Floridians will qualify for ABLE United accounts. The ABLE Age Adjustment Act raises the eligibility age from 26 to 46, opening the door for thousands of individuals—including those with later-onset conditions and veterans—to save and invest without risking benefits.

The new age threshold includes individuals with a severe diagnosis, disability, or condition from life events that frequently occur later in life, including: later onset of Multiple sclerosis (MS), mental health disorders, Lupus, vision loss and traumatic injuries.

This expansion is a game-changer for adults who have previously fallen outside of ABLE's scope. It also benefits those who may now be transitioning into new stages of life, facing increased expenses and looking for smarter ways to save without jeopardizing critical support.

Advocacy Tools

To help spread the word about the expanded eligibility, we've provided downloadable assets that are easily shareable with those in your network.

Headline: Countdown to Greater Financial Access for Floridians with Disabilities

Since the passage of the ABLE Act in 2014, ABLE United accounts have empowered over 14,000 Floridians with disabilities to save and invest for qualified expenses—without jeopardizing their eligibility for public benefits like SSI and Medicaid.

Now, thanks to the ABLE Age Adjustment Act, even more Floridians will gain access to this powerful financial tool.

Starting January 1, 2026, the age of onset for a qualifying disability will increase from 26 to 46, expanding eligibility to an estimated half a million more individuals nationwide.

This includes those with later-onset diagnoses such as:

- Lupus
- Multiple sclerosis
- Traumatic brain injuries
- Mental health conditions
- Veterans with service-connected disabilities
